SQWINCHER CONCENTRATE – LEMON/LIME

Company Details

Company: Sqwincher Australia Pty Ltd
Address: Unit 2/12 Sudbury Street
City: Darra
State: Queensland
Postcode: 4076
Telephone: 07 3374 4544
Email: sales@sqwincher.com.au
Website: www.sqwincher.com.au

Statement of Hazardous Nature

IDENTIFICATION

Product Name: SQWINCHER CONCENTRATE – LEMON/LIME
Other Names: ISOTONIC DRINK
Manufacturers Product Code: SQ0028
UN Number: NONE
Dangerous Goods Class & Subsidiary Risk: NONE
Hazchem Code: NONE
Poisons Schedule Number: NONE

Use: Sqwincher is an electrolyte replacement drink scientifically formulated to replace mineral salts, replenish fluids and sugars at optimal absorption rates, which are depleted as a result of dehydration or through physical exertion. It prevents or reduces the severity of heat stress disorders and provides a supplemental source of energy plus quenches thirst.

Physical Description/Properties

Appearance: Yellowish-Green liquid concentrate with pleasant odour
Boiling Point/Melting Point: 97°C
Vapour Pressure: 760mm Hg.
Specific Gravity: 1.0318
Flashpoint: None
Flammability Limits: Not Applicable
Solubility in Water: Miscible

Other Properties

Percent Volatile by Volume: 93.0
Vapour Density: >1
Evaporation Rate: <1

Material Safety Data Sheet

SQWINCHER CONCENTRATE – LEMON/LIME

MSDS ID: SQW-001-AS

HEALTH HAZARD INFORMATION

Health Effects (Acute and Chronic)

Swallowed:	None
Eye:	None
Skin:	None
Inhaled:	None

Emergency and First Aid Procedures: N/A

Advice to Doctor: Consult a physician or qualified health care provider before using this product if you pregnant or nursing, a diabetic or if you have any other health related condition

PRECAUTIONS FOR USE

Exposure Standards:	N/A
Engineering Controls:	N/A
Personal Protection:	N/A
Flammability:	N/A

SAFE HANDLING INFORMATION

Storage and Transport:	Do not store below 0°C Do not store in direct sunlight
Spills and Disposals:	Waste disposal through sewerage system into plant owned treatment facility leading into point source discharge
Fire/Explosion Hazard:	N/A
Other Information:	Sqwincher is water based and will conduct electricity

Statement of Hazardous Nature

IDENTIFICATION

Product Name: SQWINCHER CONCENTRATE – ORANGE
Other Names: ISOTONIC DRINK
Manufacturers Product Code: SQ0042
UN Number: NONE
Dangerous Goods Class & Subsidiary Risk: NONE
Hazchem Code: NONE
Poisons Schedule Number: NONE
Use: Sqwincher is an electrolyte replacement drink scientifically formulated to replace mineral salts, replenish fluids and sugars at optimal absorption rates, which are depleted as a result of dehydration or through physical exertion. It prevents or reduces the severity of heat stress disorders and provides a supplemental source of energy plus quenches thirst.

Physical Description/Properties

Appearance: Orange liquid concentrate with pleasant odour
Boiling Point/Melting Point: 89°C
Vapour Pressure: 760mm Hg.
Specific Gravity: 1.2754
Flashpoint: None
Flammability Limits: Not Applicable
Solubility in Water: Miscible

Other Properties

Percent Volatile by Volume: 54.1
Vapour Density: >1
Evaporation Rate: <1

Website: www.sqwincher.com.au

Statement of Hazardous Nature

IDENTIFICATION

Product Name: SQWINCHER CONCENTRATE – TROPICAL COOLER
Other Names: ISOTONIC DRINK
Manufacturers Product Code: SQ0047
UN Number: NONE
Dangerous Goods Class & Subsidiary Risk: NONE
Hazchem Code: NONE
Poisons Schedule Number: NONE

Use: Sqwincher is an electrolyte replacement drink scientifically formulated to replace mineral salts, replenish fluids and sugars at optimal absorption rates, which are depleted as a result of dehydration or through physical exertion. It prevents or reduces the severity of heat stress disorders and provides a supplemental source of energy plus quenches thirst.

Physical Description/Properties

Appearance: Light orange liquid concentrate with pleasant odour
Boiling Point/Melting Point: 95°C
Vapour Pressure: 760mm Hg.
Specific Gravity: 1.2754
Flashpoint: None
Flammability Limits: Not Applicable
Solubility in Water: Miscible

Other Properties

Percent Volatile by Volume: 48.9
Vapour Density: >1
Evaporation Rate: <1
